It gives a list of articles to take the ceremony and a section with a series of questions for the person to respond in a "Sä" format. They should also list the names of the schools attended by the Marital History and the details of the Criminal Fund. Individuals who currently reside in the United States can complete the online form on the USCIS website. You can learn more about this in our PHP tutorial. They can vote in federal elections, travel with a passport from the United States and become an elected official. Suggestion: Go to our CSS form tutorial to get more information on how it designed form elements. If the USCIS approves the request, the person takes the oath of loyalty and receives a certificate of naturalization. N-400Form N-400 is the official application of naturalization. Those who want to apply in the function of military service, live outside the United States or want to use a fee exemption, must complete a paper version of the form and send it through the mail. N-445Form N-445 is the warning of oath ceremony naturalization. The citizens also enjoy the priority processing when they want to take their relatives to the United States as residents. Individuals who complete the form must provide basic information on themselves, such as the name, birth country and residence. Comment to yourself (Step 1) Add HTML: Use a item to process the entry. Form N-400 is the form used for naturalization applicants. Naturalization vs. All the answers require an answer "without truth". Other questions make about the ability of the person of communication in English and knowledge of the United States Government. Then add the entries (with a corresponding label) for each field: `<div class="form-group"><input type="text" class="form-control" value="" /><div class="text">First name is required</div>` `<div class="form-group"><input type="text" class="form-control" value="" /><div class="text">Email is required</div>` `<div class="form-group"><input type="text" class="form-control" value="" /><div class="text">Mobile must be valid and at least 10 digits</div>` `<div class="form-group"><input type="password" class="form-control" value="" /><div class="text">Password is required</div>` `<div class="text">Submit</div>` `<div class="text">Close</div>`
